

CONSTRUCTION PRODUCTS

EasyPour™ Voids

***Concrete Forming Tubes Designed for Use
in Precast or Cast in Place Concrete***

Economical solution for floors, roof slabs, bridges, decks,
beams and pier construction.

GREIF®

PACKAGING SUCCESS TOGETHER

www.greif.com

EasyPour™ Concrete Forming Voids Can Result in Savings Due to Faster Pouring and Forming of Larger Areas and Reduced Amount of Concrete and Steel Needed

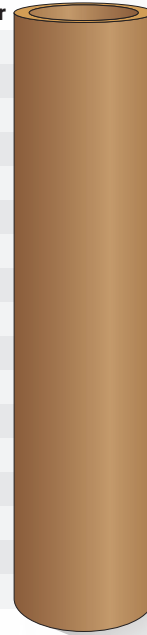

FEATURES:

- ✓ **Weather and Moisture Resistant**
Constructed of 100% recycled paperboard with exterior and interior surfaces treated for protection against moisture and adverse weather conditions.
- ✓ **Readily Placed**
Can be placed either manually or by crane for larger diameters and longer lengths. Rebar void saddles are recommended to hold void form in position.
- ✓ **Pouring**
Conventional methods can be employed. For very long forming voids, concrete should be placed with an elephant trunk or similar means – not dropped on void tubes. Concrete can be vibrated extensively without damaging EasyPour™ Concrete Forming Voids.
- ✓ **Available in a Full Range of Standard and Custom Sizes:**

 - Standard outer diameters up to 36.90"
 - Wall thickness up to .450"
- ✓ **Availability**
Manufactured at Greif plants throughout North America and Canada.
- ✓ **LEED® Qualified**
Manufactured with 100% recycled paperboard produced by our own mills.
- ✓ **End Closures and Custom Connectors Available**
- ✓ **Recyclable**

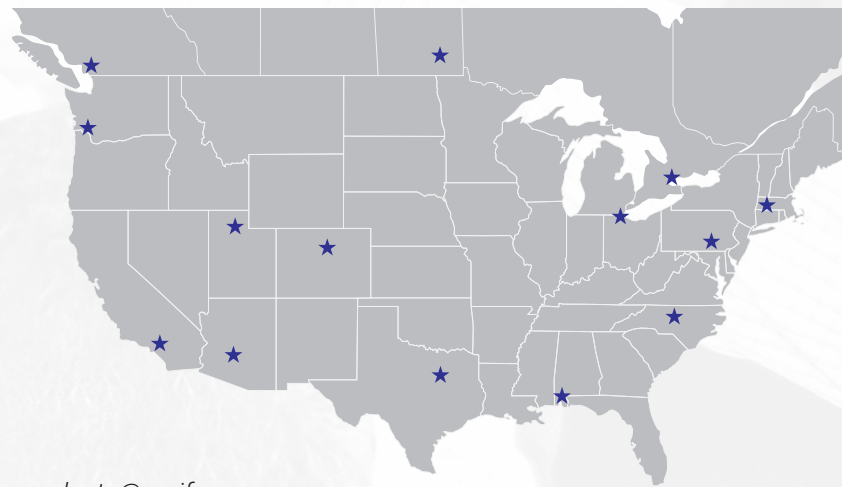

Other Sizes Available Upon Request

Outer Diameter	Wall Thickness
6.35"	.175"
