GCUBE® IBC FLEX Features

OVERVIEW

- ✓ A composite IBC able to meet aseptic requirements.

ASEPTIC INNER LINER

- ✓ Able to expand and unroll automatically inside the container guaranteeing a homogeneous position of the liquid.
- ✓ Constant filling to reach maximum capacity quickly.

CONNECTOR

- ✓ Top connection compatible with most filling lines in aseptic, both with fast connection (Elpo) and screw.
- ✓ Bottom 2" valve BPA-free with male connection (dairy DIN 11851).

EXTERNAL BAG

- ✓ Two-layer external polypropylene bag with external waterproof layer and a soft inner layer to reduce flex-cracking.

SHIPPING

- ✓ Reduced cost for global shipments.
- ✓ Suitable for one-way road, rail and sea transport allowing long lasting storage also in cooled settings (up to -18°C/0°F).

RECONDITIONING

- ✓ The external GCUBE® structure (cage and pallet) can be collected and reconditioned globally using the Greif reconditioning network.
