

GCUBE® IBC Shield

Protect Your Product and the Environment

Barrier technology to protect your product against gas permeation through high-density polyethylene.

PACKAGING SUCCESS TOGETHER

www.greif.com

GCUBE® IBC Shield Features

- ✓ Hybrid, plastic and wooden pallets are available.
- ✓ 6" (150 mm) and 9" (225 mm) openings available with all types of ventilation.
- ✓ Suitable for dip-tube and agitator.
- ✓ 2" and 3" valves with over-coated HDPE layer which ensures that only one material comes in contact with filled products.
- ✓ GCUBE® Shield is also available with antistatic for EX zones (GCUBE® Elektron).

Performance & Value

A revolutionary barrier protection compared to others on the market, fully recyclable and available in most regions.

Extending the Shelf Life of Your Product

Food products are protected against oxygen permeation into the container, thus extending shelf life, while solvent-based products or agrochemicals are protected against gases lost, increasing the overall product effectiveness.

Expanding Availability

Currently expanding the product offering around the world.

 For more information, talk to your local sales representative.
