

PROTECTIVE PACKAGING

# *Greif Offers the Best in Edge Protection*

***The Right Angle to Protect Your Products***

All products are made from 100% recycled paperboard and help maintain and protect product integrity whether shipping pallets or coils.

# GREIF®

PACKAGING SUCCESS TOGETHER

[www.greif.com](http://www.greif.com)

# Protect-A-Board

Available as Kraft Colored or White Top Ply in up to six Color Print.

Protect-A-Board's rugged, 90-degree angle construction maintains product integrity while creating stability and stack-ability. It protects the edges of palletized freight from strapping, stretch film, dents, abrasions and other damage associated with shipping and handling.

- ✓ Protects lumber and other building materials; furniture and appliances; stainless steel and other metal goods; produce and other fragile items
- ✓ Outer surfaces can be printed with your logo, advertisements or handling instructions

# Protect-A-Wrap

Available as Kraft Colored or White Top Ply in up to six Color Print.

Protect-A-Wrap is formed at a 90-degree angle, then reinforced by wrapping the top ply of paper for added strength and a cleaner appearance.

Protect-A-Wrap provides:

- ✓ Improved stacking ability due to enhanced column strength
- ✓ Overwrap provides a cleaner product with less dust

- ✓ Smooth edges enhance product appearance and safety consciousness
- ✓ Provides cost reduction through better yields
- ✓ Outer surfaces can be printed with your logo, advertisements or handling instructions
- ✓ Enhanced moisture protection
- ✓ Worldwide export capabilities

## Protect-A-Strap

Available as Kraft Colored or White Top Ply in up to six Color Print.

### Standard Grade

- ✓ The most common choice for strap protection. Often used to protect roll and sheet metal goods
- ✓ Applied to a variety of products manually and secured with manual or semi-automatic strapping tools/machines

### Machine Grade

- ✓ Provide superior protection from strap damage for products in the dimensional lumber and plywood industries
- ✓ Manufactured to your exact specifications using our quality Protect-A-Board and Protect-A-Wrap products
- ✓ Primarily secured using steel strapping
- ✓ Applied using fully automatic machines

## Protect-A-Coil

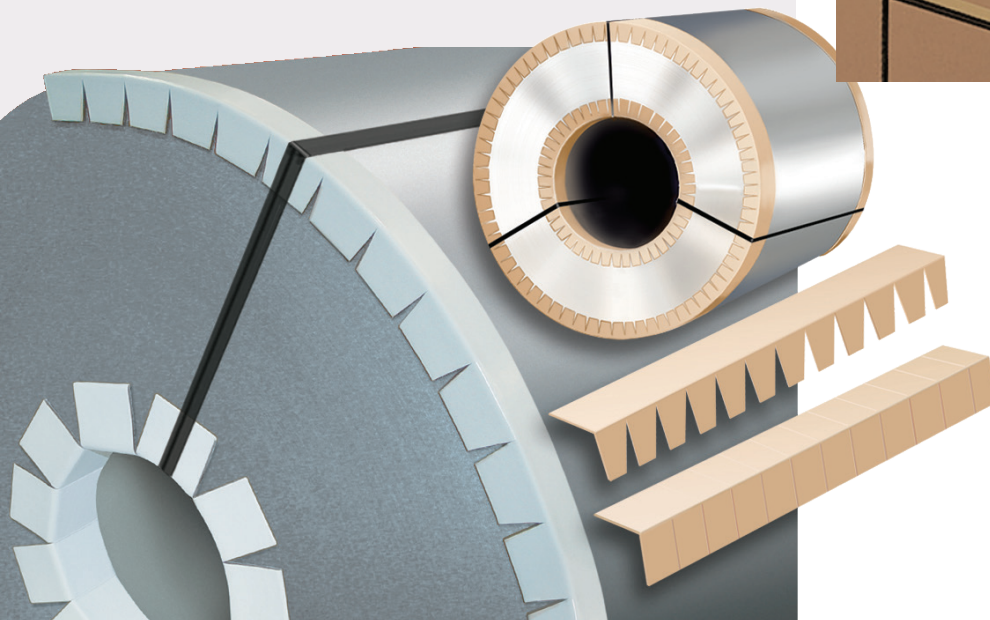

### Inside and Outside Diameter

- ✓ Designed to protect inside and outside diameters of metal coils, rolls of fine paper and other irregularly palletized freight
- ✓ Notches can be spaced to handle different roll and coil circumferences

## Protect-A-Flex

Protect-A-Flex offers the benefits of our popular Protect-A-Board but with mitered corners that reduce packaging labor and allow 90-degree turns that form a protective frame

## Fiberwrap®

Greif® Fiberwrap® is the ideal industrial packaging product because of its strength, thickness, width/length range and overall performance. It forms a true 90 degree angle for tighter fit and edge protection.

## Protect-A-Board SR

### (Snap Right)

Greif's Protect-A-Board SR reduces pallet packaging and unpacking times. In seconds, you can remove perforated portions of Protect-A-Board SR to create the ideal height-edge protection.

## Protect-A-Sleeve

Designed to prevent marring and scratching of round products during transit.

- ✓ Available in various paper grades and weights
- ✓ Available as a roll or pre-cut to specified lengths
