

Sustainable Forestry Commitment

Soterra LLC is committed to continually achieving independent certification to the SFI program. Soterra LLC is committed to promoting and achieving the principles of sustainable forest management including: practicing sustainable forestry, employing responsible practices, regenerating the forest and maintaining productive capacity, protecting and maintaining long term forest and soil productivity, protecting water resources, protecting special sites and biological diversity, address climate change adaptation and mitigation measures, limiting susceptibility to wildfire, complying with legal requirements, and continually improving forest practices.

Soterra LLC is committed to comply with applicable laws and regulations, including social laws. Soterra LLC strives to involve interested and affected parties in its sustainable forest management programs and to consider their comments and inputs in making management decisions.

To help implement and achieve certification to the SFI Program, Soterra LLC has developed and adopted appropriate programs, plans and procedures to guide its land management activities. These programs and plans are contained in the Soterra LLC SFI Manual, the SFI Program and other written documents. Soterra LLC is also committed to annually review the effectiveness of its management programs to continually improve the practice of sustainable forestry.
